1. Statement of Significant Policies

The members have prepared the financial statements on the basis that the Association is a non-reporting entity because there are no users dependent on general purpose financial reports. This financial report is therefore a special purpose financial report that has been prepared in order to meet the needs of members.

The financial report has been prepared in accordance with the significant accounting policies disclosed below which the members have determined are appropriate to meet the needs of members. Such accounting policies are consistent with the previous period unless stated otherwise.

The financial statements have been prepared on a cash basis and are based on historical costs unless otherwise stated in the notes. The accounting policies that have been adopted in the preparation of this report are as follows:

1.(a) Inventories

Inventories comprise uniforms and are measured at the lower of cost and net realisable value. This is a change in accounting policy in the current period as inventory was expensed in prior financial years. The effect of this change was to reduce uniform expense in the current period by \$1,372.80 (2021: \$nil).

1.(b) Property, Plant and Equipment

Fixed assets are carried at cost or Committee's valuation. All assets are depreciated over their useful lives to the Association. The carrying amount is reviewed annually by members to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have not been discounted in determining recoverable amounts.

1.(c) Cash and Cash Equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts.

1.(d) Trade Receivables and Other Receivables

Receivables are recognised at the nominal transaction value without taking into account the time value of money. If required a provision for doubtful has been created.

1.(e) Trade Creditors and Other Payables

Payables are recognised at the nominal transaction value without taking into account the time value of money.

1.(f) Revenue and Other Income

Revenue from the rendering of a service is recognised upon the receipt of payment for the invoice by the customers.
